COMPREHENSIVE EEG COURSE 2019

ORGANIZED BY

Pediatric Neurology Unit, Department of Pediatrics*, PGIMER Chandigarh
In collaboration with Suri Family Foundation

MAY 25–27, 2019

SURI NEURO

Faculty delivering a session during the Comprehensive EEG Course 2019 at PGIMER Chandigarh.

The *Comprehensive EEG Course 2019* was successfully conducted from May 25 to 27, 2019, at PGIMER Chandigarh. This academic initiative was organized by the Pediatric Neurology Unit, Department of Pediatrics, PGIMER Chandigarh, in collaboration with the Suri Family Foundation.

SURI NEURO

Dr. Madhav Suri

The three-day program aimed to enhance knowledge and practical skills in electroencephalography (EEG) among neurologists, neurophysiology technologists, and trainees. The course included a well-structured combination of lectures, interactive discussions, and hands-on training sessions.

SURI NEURO

Participants were introduced to key aspects of EEG, including recording techniques, artifact recognition, waveform analysis, and clinical interpretation. Real case-based discussions played a crucial role in bridging the gap between theory and clinical practice.

SURI NEURO

The course witnessed active participation and provided a valuable platform for academic exchange, skill development, and professional networking in the field of clinical neurophysiology.
